

What do mobile/community wardens do?

For a small weekly fee Mobile/Community wardens support older people to live independently in their homes, in the communities they know and which knows them.

The warden schemes are complementary to statutory care services and don't duplicate or replace the medical or social care services that individuals need. Instead, wardens are a regular, friendly and helpful contact.

A friendly face

The wardens are a familiar face, offering a listening ear and supporting you to stay in your community for longer. They are also valuable support if you're returning from a stay in hospital, and can offer reassurance to families who aren't able to visit regularly.

Examples of Support provided:

- Friendship and emotional support to combat loneliness and for improved mental wellbeing
- Helping with errands like picking up prescriptions or going to the Post Office
- Help with shopping, reading post, filling in forms and making phone calls

Services vary. Please contact your local scheme for details.
